

Clinical Documentation for Community and Rural Hospitals

Arrendale's cloud-based platform for community, rural and critical access hospitals includes our smart phone app, Mobile+, for on the go dictating, transcript viewing and patient searching. Modernize your dictation and transcription technology, improve your physicians' efficiency with mobile technology and reduce your facility's IT workload with our hosted platform, Transcript AdvantagePlus, TA+.

Physician Benefits

- Smart phone, land line, digital recorder and SpeechMike dictation
- iPhone and Android apps to view transcripts and optionally e-sign
- Smart phone search by patient name, MRN, PAN and admit date
- Stat prioritization feature for all dictation methods
- Ability to save a job in incomplete status and finish later
- Transcript keyword search; great for research, audits and clinical trials
- Speak-EZ+ PC app to improve Dragon front-end speech rec dictation with:
 - Spellcheck, 'Send to Transcription' button and drop down for 'Normals'

Cost Savings

- No start up fees
- No annual support fees
- No servers to purchase, install and monitor
- No cost for an ADT import, HL7 or CSV flat file
- No cost for outbound HL7 to EHR
- Pay-as-you-go with fixed monthly cost
- Integrated Dragon front-end speech recognition
- All inclusive cloud-based system

Customer Care and IT Support

- Well-trained, U.S. manned tech support staff
- Always open Support Center, 24/7/365
- Ticket system with automatic emails on issue progress
- AAI server monitoring and alerts of system irregularity
- Premier, certified data center with fabulous uptime
- System redundancy and constant backups
- HL7 interface know-how with all major EHRs and HIS
- Connectivity options: web service, VPN and secure FTP
- On-site training option for a smooth transition

"We Love the platform! TA+ is a great program! It is user friendly, training went smooth, they know their program. They have bent over backwards to give us what we want. You guys are great."

Carolyn Anderson, HIM Director
Beaver Valley Hospital
Beaver, UT

Clinical Documentation for Community and Rural Hospitals

"The TA+ dictation/transcription/electronic signature system works smoothly for Dekalb Medical Center's radiologists. I really appreciate that Arrendale's support team is available 24 hours a day. Our department's efficiency has benefited from the AAI relationship."

Sabrina Ballenger, R.T.(R) PACS Administrator
Dekalb Medical Center, Decatur, GA

For HIM Directors and Security Officers

- Remote access convenience to TA+ software platform
- Real-time Job Monitor summarizes system activity
 - Drill down functionality by status, department for detail
- Automated QA workflow resolves blanks before delivery to EHR
- Extensive menu of user reports for statistical analysis
 - System generated Turnaround Time reports for HITECH audits
- Detailed event logging promotes HIPAA compliance including:
 - Listening, transcribing, editing, viewing, printing and faxing
- Hospital super-user control of system access levels for each user
- Multiple search fields to locate transcripts and dictations easily
- Rules-based software automates transcript delivery
 - HL7, print, fax, folder drop and web service
- Online 'Help' tab assists managers and transcriptionists
- Central repository of all voice files including Dragon

For Transcription Managers

- Feature-rich word processing
 - Spellchecker, Text expander, facility-wide Normals
 - 2nd window to transcribe Stats
 - Auto-splitting of multiple jobs on a single voice file
 - Both text and audio bookmarks for speedier editing
- Intelligent backend speech recognition
- Optional integrated transcription outsourcing with A+Network
 - Coverage for nights, weekends and holidays
 - Manual or automatic assignment of jobs to A+Network
 - 100% U.S. domiciled MTs, editors and management
