

# Physician Practice Dictation Solutions from Arrendale

## Make your Providers and Administrators Smile

- Dictation options to suit every provider
  - Smartphone app, toll-free landline, USB mikes, digital recorders and dictate stations
- Central repository of all voice files from all devices
- Stat job prioritization feature to expedite urgent jobs
- Scalable capacity for single dictators to thousands
- Fast start up, begin dictating straightaway
- Mobile+ Smartphone app easily downloaded from Apple or Google Play stores
  - Multi-function: dictate, speech rec, search, view, edit and e-Sign
  - Patient metadata integration from EHR or scheduling system

## Voice to Text Options: Your Choice

- Use our cloud speech rec with mobile app or PC dictation
- Faster appearance of text on screen and great accuracy
- Works with all EHRs: Improve your EHR experience
- Compatible MTSOs happy to edit draft notes to save your time
- Listen access included for sites with their own transcription and editing team
- Integrated word processing program to edit speech rec or transcribe traditionally

INNOVATIONS IN  
PRODUCTIVITY

## Efficiency and Convenience

- Server hardware and software provided by AAI in the cloud
- No busy signals
- Secure, unique website for anytime, anywhere access
- Search by patient, provider, date or worktype to locate needed voice files
- HIPAA and HITECH compliance
  - Username and password requirements with defined user permissions
  - All dictating, listening, editing, e-Signing and delivery is logged by date, time and user
  - All voice, text and patient data is encrypted on servers, PCs and in transit

## Interoperability and Beyond

- HL7 expertise with:
  - Allscripts, Athena, Cerner, CPSI, eClinicalWorks, Epic, GE Centricity, NextGen, Paragon and more
- Configurable transcript delivery to EHRs, SFTP, printers and fax
- Patient metadata integration via HL7 or automated flat file spreadsheet
  - From EHR or scheduling system, utilizing existing interfaces
- System reporting of dictation activity and turnaround times
- Keyword search of note contents, great for clinical trials, research and audits
- E-Signature option, available on Smartphones, tablets and Windows PCs

## Proficient Customer Service

- Well-trained U.S. Support Center technicians
- Toll-free, 24 by 7 assistance
- Ticket tracking system to advise of issue progress and closure
- Audited and certified data center with fabulous uptime
- Multiple dictation servers with constant backups

## Cost Savings with Cloud Hosting

- No servers or software to purchase, install and manage
- No device costs: no more handhelds, dictate stations or tapes
- No annual support fees
- No expensive T1 telephone lines
- Simple, monthly software lease fee
- Reporting to breakout system usage by provider
- Full insurance coverage for cyber/dataloss/ransomware
