

Arrendale Mobile+

Smartphone Dictation and More:

Dictate your Notes Anywhere, Anytime with:

- Integrated speech-to-text
- Patient and prior note search
- View and edit functions
- eSign on your device

Healthcare Professionals Love Mobile+

- Higher quality audio delivers accurate draft notes
- Less time spent on corrections
- No Need to carry a recorder
- Faster than telephone dictation

The Convenience of Speech Recognition on Your Smartphone

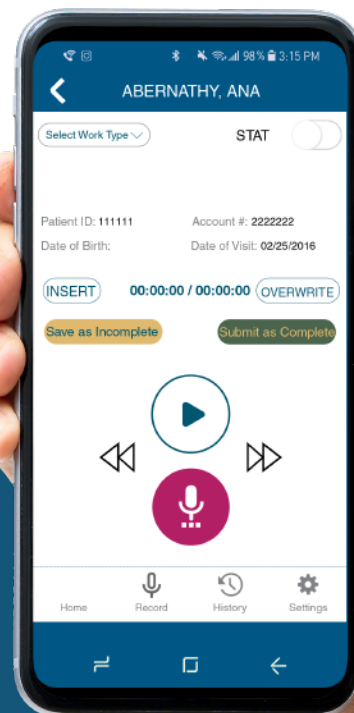

INNOVATIONS IN
PRODUCTIVITY

- AI, deep learning and neural network innovation delivers accuracy
- Narrate on your phone and edit in a minute on your phone, tablet or PC
- Pharmaceutical and all medical specialties, including behavioral health
- Cloud deployment: No separate install
- nVoq partnership and integration brings latest innovation
- All dictation accents and ethnicities supported

Intuitive Design Saves Time

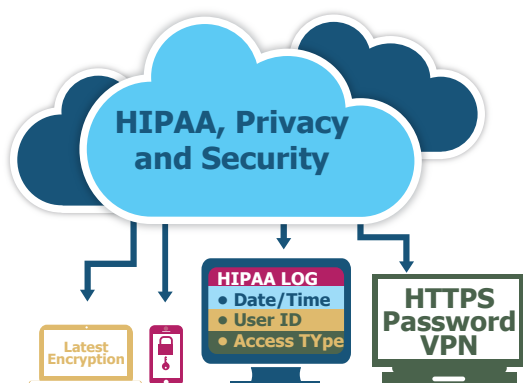

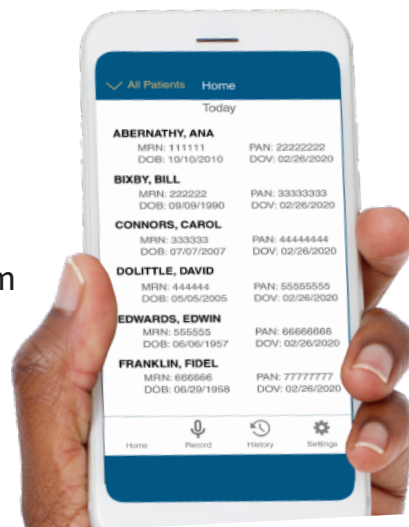

- Apple and Android versions
- New users are narrating in minutes
- Option to save a partial dictation for later completion
- Auto upload for dictations created outside network area
- Stat button for urgent notes
- Visual indication of recording action prevents lost audio files

Mobile+ Can Display Your Daily Patients

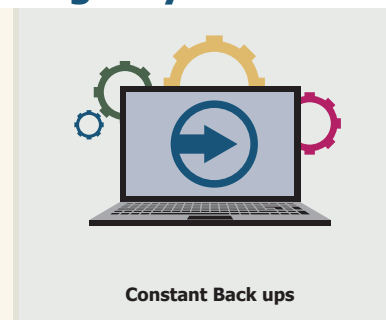

- 2 methods to upload daily patient lists from host system
 - HL7 or automated spreadsheet import
- Selecting the patient starts each new note
- Fewer errors as patient names match host EHR or scheduling system
- Color coding reminds users which patients have not had a dictation
- Users may also keyboard patient details or simply dictate them

Compliance Covered! PHI Safeguards Include:

- Triple DES encryption (HTTPS and SSL) for all patient metadata, voice files and text notes
- Password requirement with configurable expiration
- Forced log off closes the app after specified period
- HIPAA event log shows all activity for each audio file and note
- Removal of metadata, audio file and text notes, when app is closed
- Password can be reset instantly from the web if phone is lost
- Audio files, not streamed audio, are delivered via secure Wifi or cellular network

A Support Center That Understands Healthcare's Urgency

About Arrendale Associates, Inc.

Arrendale Associates supplies interoperable clinical documentation solutions to healthcare customers in the U.S., U.K., Ireland and India. Physician practices, behavioral health clinicians and health systems benefit from Arrendale's modular software by reducing costs and improving documentation efficiency with integrated nVoq speech recognition, customizable workflow and EHR compatibility. Arrendale Mobile+ is one component of the Transcript Advantage Plus system with additional dictation, note creation and archiving options. Arrendale's transcription service partners assist providers with speech editing and full transcription, eliminating integration projects.
