About Arrendale Associates, Inc.

Arrendale Associates supplies interoperable clinical documentation solutions to healthcare customers in the U.S., U.K., Ireland and India. Physician practices, behavioral health facilities and community hospitals benefit from Arrendale's modular software by reducing costs and improving documentation efficiency with customizable workflow and EHR compatibility. Arrendale's Cloud dictation and Transcript AdvantagePlus platform are web-based, configured for each facility and supported by our US Support Center. Integrated nVoq speech recognition increases the workflow options, saves time and delivers favorable pricing compared with competitors. Arrendale MTSO transcription service partners assist providers with transcription creation and editing, eliminating integration projects.
