

Desktop Dictation

From Arrendale Associates

Great Speech-To-Text Plus So Much More!

Cloud Speech Recognition is the Way to Go

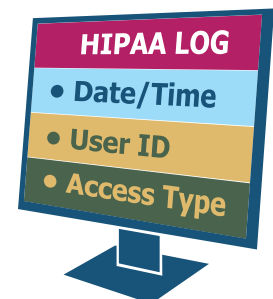

- Quick display of text as you dictate
- Comprehensive vocabulary for all medical, diagnostic imaging and behavioral health specialties
- No hassle provider roaming to any desktop: office, home, hospital and clinics
- Desktop sharing option with unique user IDs
- Accurate text for all ethnic and geographical accents
- Voice short cuts for formatting and navigation to save time
- Easy insertion of repeated text, 'Normals,' via dropdown
- Lightweight install on average PCs; no investment needed for powerful PCs

Look What Else Is Included

- eSign functionality: Dictate, edit and sign on the same screen
 - Dual eSign for residents and preceptors
- Integrated editing options: Click and send to your staff or MTSO for editing
- Workflow freedom with each job to self edit or send to others
- Keyword search of note contents: meds, symptoms and diagnoses
- Transcript delivery automation: Online and hard copy
- HL7 expertise, inbound and outbound, to work with your EHR

About Arrendale Associates, Inc.

Arrendale Associates supplies interoperable clinical documentation solutions to healthcare customers in the U.S., U.K., Ireland and India. Radiology groups, physician practices, behavioral health facilities and health systems benefit from Arrendale's modular software by reducing costs and improving documentation efficiency with integrated nVoq speech recognition, customizable workflow and EHR compatibility. Arrendale's Speak-EZ desktop dictation and Transcript AdvantagePlus platform are cloud-based, customized for each user and supported by our US Support Center. Arrendale MTSO transcription service partners assist providers and therapists with speech editing and full transcription, eliminating integration projects.
